GENERAL CLEANLINESS

Air supply/return registers are cleaned regularly and free of dust and debris accumulation?

Cleaners that are used have an awful odor. I would like to know why air fresheners that are not electric may not be used.

Dust observed on supply/return registers at the time of assessment.

Site based administration should address general cleanliness with facility serviceperson staff.

Site Based

2

THERMAL COMFORT

Classroom is free of significant temperature shifts?

Maintenance has been out and put a lock on my air. It is unbearable. If I am responsible enough to teach first graders I would think the school board would give me the benefit to control my air system.

Temperature was acceptable at the time of assessment.

None

Humidity is generally acceptable? (Typically too high if higher than 60% relative humidity [RH] or too low if lower than 30% RH.)

Maintenance has been out and put a lock on my air. It is unbearable. If I am responsible enough to teach first graders I would think the school board would give me the benefit to control my air system.

Humidity was slightly elevated at the time of assessment - 10% greater than outdoors.

Physical Plant Operations to evaluate HVAC system for proper operation and repair as appropriate to lower humidity level.

Physical Plant Operations

2

Room is usually comfortable? (If no, please explain in the notes below.)

Maintenance has been out and put a lock on my air. It is unbearable. If I am responsible enough to teach first graders I would think the school board would give me the benefit to control my air system.
