## THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA ENVIRONMENTAL HEALTH & SAFETY DEPARTMENT

FACSIMILE: (754) 321-4285

**TELEPHONE (754) 321-4200** 

February 22,	2017 Signature on File	For Custodial Supervisor Use Only
TO:	Michelle Padura, Principal Stranahan High	Custodial Issues Addressed  Custodial Issues Not Addressed
FROM:	Alison Witoshynsky, Project Manager Environmental Health & Safety Department	
SUBJECT:	Indoor Air Quality (IAQ) Assessment	

On February 21, 2017, I conducted an assessment at **Stranahan School.** Attached are findings and recommendations for further assessment, remediation, or corrective actions needed.

The IAQ assessment did identify one or more existing conditions impacting IAQ and has generated appropriate work orders to correct deficiencies in systems and maintenance that could contribute to decreased indoor air quality. At the time of the assessment, these concerns were not an immediate health or safety concern to building occupants. However, due to individual sensitivities and predisposing health factors, it is possible that some building occupants may elicit a health response to agents and / or conditions identified during the evaluation. Therefore, to further improve IAQ, prevent development of future IAQ-related problems, and to reduce the potential for IAQ-related complaints by building occupants, the IAQ Assessment Team recommends appropriate follow up of each item identified and listed in the attached evaluation.

Please ensure that your Head Facilities Serviceperson receives a copy of this correspondence so that the recommendations requiring their attention can be addressed. In an attempt to separate IAQ issues from general maintenance items, the attached assessment may contain direction for site based staff to generate a work order through COMPASS. Within two weeks a representative from the Custodial/Grounds Department will conduct a follow-up visit to ensure that all site based custodial issues have been appropriately addressed.

Should any questions arise, or if the current concerns continue after the attached recommendations have been addressed, please feel free to contact us at 754-321-4200.

AW:smn Enc.

cc: Shelley Meloni, Director, Pre-Construction
Mark Dorsett, Manager, Zone 1, Physical Plant Operations Division

Broward Teachers Union
Federation of Public Employees
Gerald Devio, Supervisor II Custodial
Benjamin Osborne, Supervisor II Custodial
Mark Murray, Supervisor II Custodial
Sam Bays, Director, Maintenance Operations
Kurt Wirz, Area Manager Trades

Facilities personnel report a leak occurred in the adjacent room (boys restroom). Students were removed from the classroom until the water damaged materials were removed. The south portion of the west wall was reportedly removed to 4 feet high. This assessment included checking the entire west wall for moisture. The middle section (~ 8 feet) of the wall remains wet. Could not determine the height of the wet material as a white board is in the way. Black stains on bottom of wall near baseboard likely from wax overspray.

## Corrective Actions to be Completed by Site Based Staff

	_
Clean dust from ceiling tiles or replace	
Replace filters, following water damaged	
building material replacement	▼
Thoroughly clean lower portion of wall	▼
Call when wall removal is underway so complete	
so complete removal can be confirmed	
	▼
	▼

## Corrective Actions to be Completed by PPO

Corrective Actions to be completed by 110	
Remove/replace interior water damaged walls	
Set Temperature to 72 - 78 degrees	▼
Repair HVAC to Reduce Humidity Levels	▼
Repair HVAC to Reduce CO2 Levels	▼
