Frequently, there is a mosquito problem because they fester around the doorway and enter when the door is opened and closed. In addition, the room is not dusted properly. The computers and the computer tables are very dusty. There could be a possibility that the room has mold because of the old carpeting in the room.

Drain Traps in the Classroom

Drain traps, if present, can become a problem when the water in the drain trap evaporates due to infrequent use, allowing sewer gases to enter the room.

There were no problems observed at time of assessment.

No corrective action recommended at this time.

Excess Moisture in Classrooms

Check for leaks or signs of moisture from plumbing or roofs.

There were no problems observed at time of assessment.

No corrective action recommended at this time.
