Welcome to 2018-2019 School Year

What is School Advisory Forum? (SAF)

School Advisory Forums (SAFs) were created by Broward County Public school teachers, administrators, and community members. The main goals of the Sch problem solving.

Information Sharing

The SAF chair attends monthly area meetings to get information from the area affecting education and the schools. Information from individual schools is shared at the district advisory level and then presented to the school board when applicable (advisory and school board) back down to the Areas and then individual schools.

Problem Solving

Often problems brought up at school SAF meetings can be resolved at the meeting by everyone. Likely if one person has the question, many more do as well. Problems can be brought to the Area and on upward as previously mentioned.

Get Involved!

We want to hear from you! Attend as many or as few SAF meetings as possible. The more input given, the more information can be shared and the more support from the chair or the school for more information.
