SAF Meeting

Mr. Peters attended a recent SAF meeting where Superintendent Runcie and Brian Katz spoke about the safety of our schools. The district has hired a company called "Safe Haven" to review safety procedures at all of the schools. Mr. Peters will be reviewing the report in the upcoming weeks.

Safety

A phone with a camera has been installed at the front of the school. Anyone entering the school will need to show identification and have specific business to conduct. The phone will be operational for now from the hours of 8am to 2pm.

Technology

Matthew Bradford, the head of technology for Broward County Public Schools visited Gator Run Elementary to see how the school integrates using technology into the curriculum. He was very impressed and took away a lot of valuable information to pass on to other schools.

Budget

School budgets have been released for the upcoming school year. Currently, at Gator Run, a total of seven teachers will not be returning. Two teachers will be retiring at the end of this school year. Four teachers are moving out of the county this summer. Our P.E. coach will be moving to Falcon Cove Middle School.

**New Business**

School-Wide Positive Behavior Plan (APBP)

The School-Wide Positive Behavior plan is a plan based on the type and number of school referrals over the year. Fortunately, we have only had nine school referrals. It is difficult to create a plan with such few incidents however, several school staff

members created a plan which includes lessons of appropriate behavior centered around certain areas of the school that has the most occurrences of problematic behavior. These lessons will be viewed on the morning announcements. The GRE staff voted on the School-Wide Positive Behavior Plan. It passed and will be added to the School Improvement Plan (SIP).

Equity Plan – Mrs. Ward

Broward County Public Schools has started an initiative to ensure that all students have access to well-rounded educational opportunities. Mrs. Ward is the equity liaison for Gator Run. Data of student performance and behavioral incidents based upon race, ethnicity, and gender were examined to ensure equity is being implemented across all schools in the county. Overall, the goal is to make each learning environment and welcome friendly place where students feel connected and represented.
