

Structural Collapse Rescue

Technician Level

CLASS DATES: February 4th – 15th, 2019

HOURS: 0900 – 18:00* hours

DESCRIPTION:

This 80-hour class is designed to provide the emergency response personnel the information and skills necessary to operate safely and effectively at incidents involving the collapse of all types of structures, including pre-stressed, post-tensioned, tilt-up concrete, reinforced concrete, and steel frame. This course meets the requirements of NFPA 1670, *“Standard on Operations and Training for Technical Rescue Incidents”*, and NFPA 1006, *“Professional Qualifications for Structural Collapse Technician Level”*. **Proof of completion of a Florida BFST certified Structural Collapse Operations Level course is required at time of registration.**

Performance of all required practical skills are necessary in order to receive a certificate. This is a performance and skill driven class; daily class times are identified for reference only. Please see the Broward Fire Academy Dress code for proper attire. Students are required to provide their own NFPA and ANSI compliant helmets, gloves, steel toe boots, and safety glasses.

Course topics will include:

- Recognizing hazards unique to structural collapse or failure
- Locating, accessing and extricating victims
- Stabilizing and shoring structures
- Rigging, lifting, and moving heavy objects
- Oxy-acetylene, Petrogen, and exothermic cutting and burning
- Lift Bag Techniques and Operations
- Search Equipment Techniques and Operations
