

FCAT Science practice is now available for 11th Grade students: “**SCIENCE MISSION**”

www.fcatexplorer.com

GOOD NEWS!!!! All MSD students have been pre-enrolled in the *FCAT EXPLORER* program. *FCAT Explorer* is a free online practice program from the Florida Department of Education. It features two practice programs for 10th grade students (“*READING TIMELINE*” and “*MATH TIMELINE*”) and a practice program for 11th grade students (“*SCIENCE MISSION*”).

All of the programs offer practice for the skills tested on the *FCAT*. You’ll receive helpful feedback to the answers you choose and a second chance to answer questions and apply what you’ve learned. The *FCAT Explorer* also features helpful online tools like a calculator, a formula reference sheet, and a glossary that defines and pronounces the glossary words.

Whether you are retaking the *FCAT* or taking it for the first time, your performance on the test will benefit from the extra time you spend studying on *FCAT Explorer*. To get your free *FCAT Explorer* sign-in name and password, see Mrs. Berman in Main Guidance or email her at joellen.berman@browardschools.com.

You must PASS the Reading and Math FCAT to receive a STANDARD HIGH SCHOOL DIPLOMA. If you can use the Internet, you can use *FCAT Explorer*. Help screens and useful tips are included at www.fcatexplorer.com.
