FCAT PREPARATION PROGRAMS AFTER-SCHOOL PROGRAMS

I am pleased to announce that the Broward County Commission has provided approval to Broward County Traffic Engineering (BCTE) to activate the school zone yellow flashing lights to enhance the safety of students who attend FCAT Preparation After-School Programs.

In order to take advantage of this commitment from Broward County, the Safety Department will need the following information at least one month prior to the start of the FCAT Preparation After-School Program.

1. List of schools participating with FCAT Preparation After-School Program(s).
2. Dates of the program(s).
3. Times of the program(s).

Once the Safety Department receives this information, it will be reviewed with Broward County Traffic Engineering (BCTE) for implementation. The school zone yellow flashing lights, where provided for the affected schools, will operate for 30 minutes after the end of the program time.

Should any further information be required, please contact the Environmental Health & Safety Department at (754) 321-4200.
