

## Work instructions for configuring the browser settings for Firefox 3.5.7

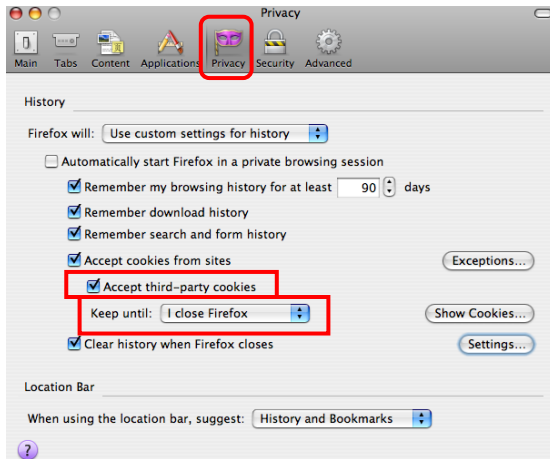

1. To verify **Firefox 3.5.7** Browser settings click **Firefox**, select **Preferences**. If Firefox is not at version 3.5.7, follow separate instructions at <http://www.broward.k12.fl.us/erp/brite/support/updates/> to download version 3.5.7 first and then continue with this process to set browser settings.

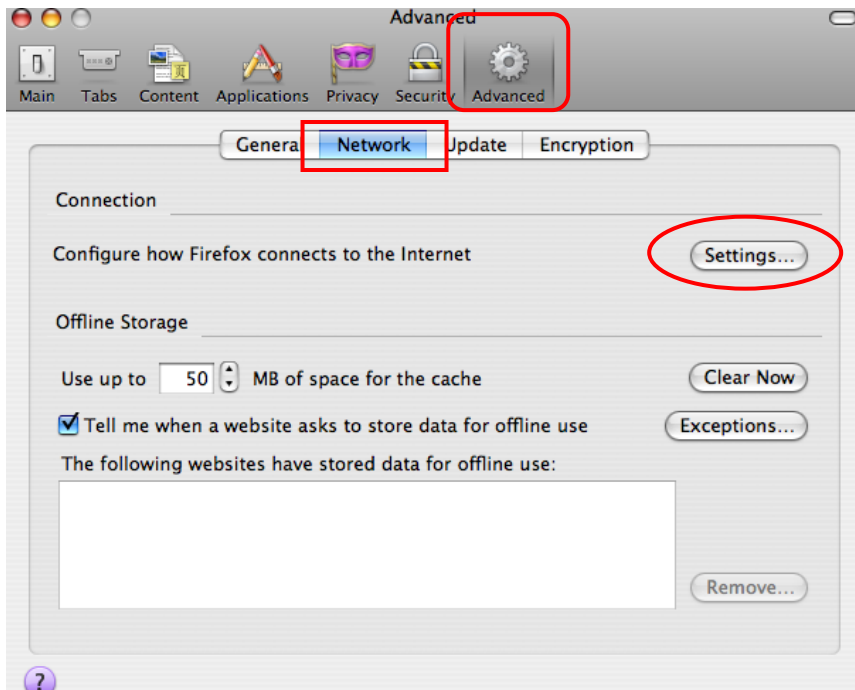

2. Click the **Content** icon
3. Disable (Uncheck) the “Block pop-up windows”.

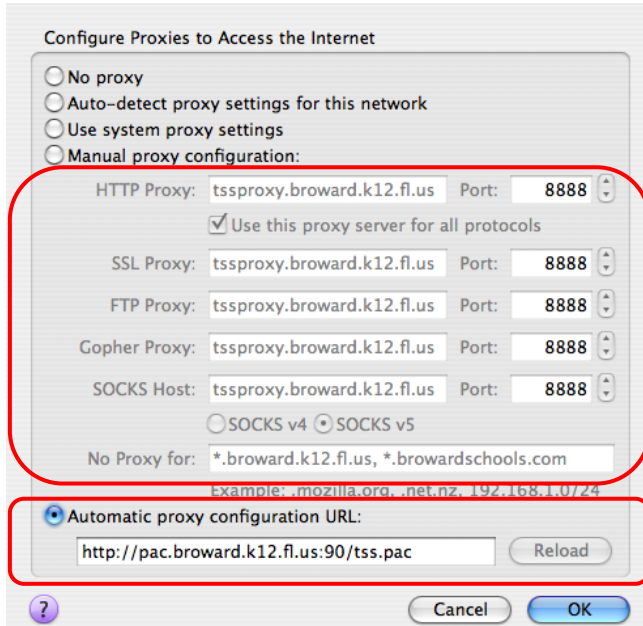

4. Click the Privacy icon
5. Check the box next to “Accept cookies from sites”.  
Select “Keep until I close Firefox”.

6. Click the **Advanced** icon:
7. Click the **Network** tab, then the **Settings** button:

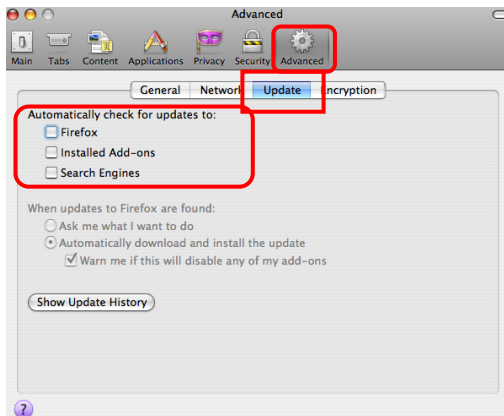

8. Select “Automatic proxy configuration URL”, and then set it to: <http://pac.broward.k12.fl.us:90/tss.pac>  
Uncheck ALL other selections.  
Click **OK**.

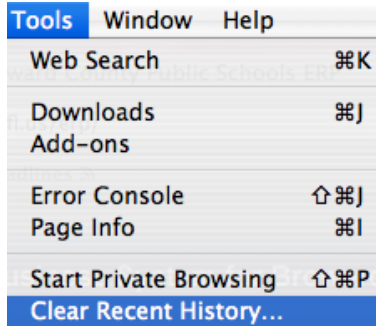

**Note:** If your screen does not reflect the correct proxy and port data as shown above you will first need to click manual proxy configuration and add the correct settings. Please pay special attention to the “**No Proxy for**” field; you **MUST** update the field to reflect **\*.broward.k.12.fl.us, \*.browardschools.com** as shown in the screen shot.

9. Still on Advanced: Click the **Update** tab and then uncheck (disable) Firefox updates.  
10. Click **OK**  
11. Click the **red X** to close the Preferences window

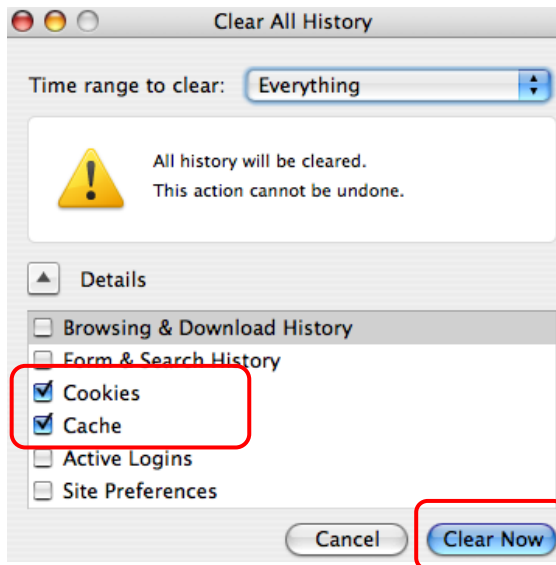

## 12. Delete Cookies:

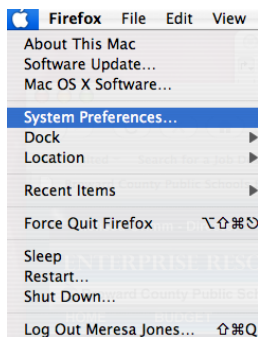

Under **TOOLS**, select **Clear Recent History**

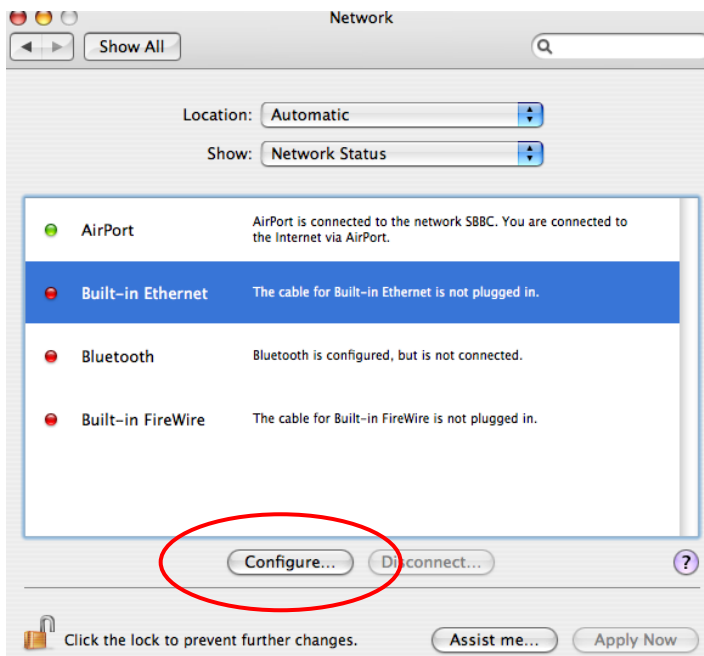

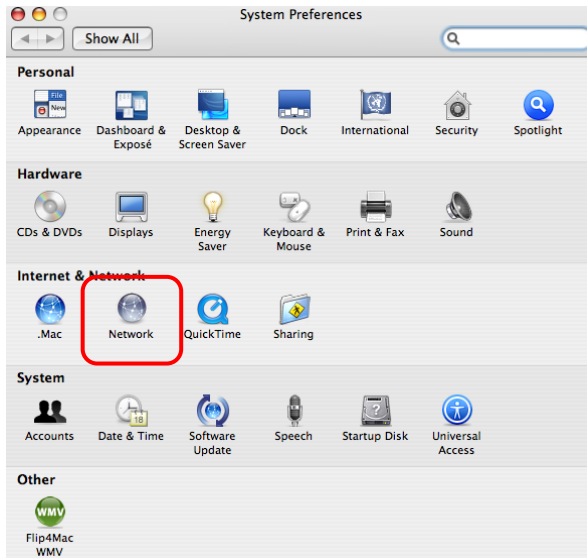

13. Select the options as indicated below and click the **Clear Now** button.  
Close ALL Firefox sessions

14. Also verify Mac Network proxy settings:  
Under the **Apple**, select **System Preferences**:

15. Under **Internet & Network** click the **Network** icon

16. Click the **Proxies** tab.
17. Choose “**Using a PAC file**” for Configure Proxies.
18. Set the PAC file URL to <http://pac.broward.k12.fl.us:90/tss.pac>
19. Click **Apply Now** button, then close **red X**
20. You can now start Firefox again.
