SMART Community Updates

As the momentum continues to build on the SMART initiative, the District is committed to fostering a culture of inclusion and collaboration with our local business community. Superintendent Robert W. Runcie, BCPS Facilities Department leaders and staff members continue to visit stakeholder groups to provide SMART program updates.

Superintendent Runcie Speaks to the Downtown Council of Greater Ft. Lauderdale Chamber of Commerce on September 22, 2016.

BCPS Facilities Chief Leo Bobadilla and Robert Corbin, Owner's Representative - BCPS SMART program, present SMART information at the South Area Advisory Council Meeting on September 21, 2016.

SMART Update provided to the City of West Park by BCPS Facilities Chief Leo Bobadilla and Robert Corbin, Owner's Representative - BCPS SMART program, on September 21, 2016.

SMART Technology and Professional Development Opportunities!

The BCPS Department of Professional Development Standards and Support is providing professional development opportunities related to the SMART initiative and technology integration in schools. Teachers can earn five successive qualifications aimed at supporting blended classroom environments and incorporating 21st century teaching and learning.

The District is proud to announce that 84 District schools have now achieved 21st Century Learner School status for having at least 90 percent of their staff successfully complete the Level 1 21st Century Learner Qualification professional development program. This includes a total of 4,818 staff members at these schools. Congratulations to the schools' principals and staff for their hard work and dedication! An additional 87 schools are currently in the process of earning their 21st Century Learner Qualification.

SMART Shout Outs!

Beachside Montessori Village

"The SMART bond has provided our students with greater access to technology by significantly increasing the number of laptops in our preK-8 classrooms. Each student in grades 4 - 8 has his/her personal laptop during core subjects. Access to this technology is a great tool for our teachers in differentiating learning for our students, increasing students' digital literacy, and preparing them to be true 21st century learners."
Vered Roberts, Principal

Nova Middle School

"The SMART Technology that Nova Middle has acquired, provides accessibility for more students to utilize web-based curriculum programs that support and maximize academic achievement."
Rayner Garranchan, Principal

Western High School

"With the SMART Bond, we were able to purchase over 950 new computers! We upgraded four computer labs for our high-end digital design, STEM, engineering and programming classes. Some of those computers were over 10 years old. We also created a new lab for our CODE.org program and for the media center. It's been a huge improvement for our students and faculty, as we try to keep pace with constantly improving technologies."
Jimmy Arrojo, Principal
