Multisyllabic Word Reading Training
Why might you want to teach multisyllabic word reading?

- Poorly developed word recognition skills are the most pervasive and debilitating source of reading challenges.  
  Adams, 1990; Perfetti, 1985; Share & Stanovich, 1995

- The ability to decode long words increases the qualitative difference between good and poor readers.  
  Perfetti, 1986
Why might you want to teach multisyllabic word reading?

• Necessary for comprehension
  – Word recognition is a necessary, though not sufficient, skill to allow comprehension.

• Both decoding and fluency are necessary prerequisites for comprehension
Mrs. Mooney was a bachelor’s daughter. She was a woman who was quite able to keep things to herself: a determined woman. She had married her father’s fireman and opened a bachelor’s shop near Spring Gardens. But as soon as his father-in-law was dead Mr. Mooney began to go to the deeper. He drank, plundered the till, ran headlong into the bed. It was no use making him take the plan: he was sure to break out again a few days after. By fighting his wife in the pressure of customers and by buying bad meat he royed his business.
One night he went with his wife with the clever and she had to sleep in a neighbor’s house. After that they lived apart. She went to the pest and got a separation for him with care of the children. She would give him neither money nor food nor house-room; and so he was obliged to enlist himself as a shirt man. He was a shabby stooped little drunkard with a white face and a white moustache and white eyebrows, penciled above his little eyes, which were pink-neved and raw; and all day long he sat in the balleaf room, waiting to be put on a job.

Thank you to Kathy Jungjohann, University of Oregon, for designing and giving permission to use this activity. Adapted from “The Boarding House” by James Joyce.
Comprehension Questions

1. What kind of business did the Mooney’s have?
2. Why didn’t they have much money?
3. What did Mr. Mooney do to try to stop his devilish ways?
4. What incident caused Mrs. Mooney to decide to leave her husband?
5. What did Mr. Mooney then decide to do for work?
Mrs. Mooney was a butcher’s daughter. She was a woman who was quite able to keep things to herself: a determined woman. She had married her father’s foreman and opened a butcher’s shop near Spring Gardens. But as soon as his father-in-law was dead Mr. Mooney began to go to the devil. He drank, plundered the till, ran headlong into the debt. It was no use making him take the pledge; he was sure to break out again a few days after. By fighting his wife in the presence of customers and by buying bad meat he ruined his business.

One night he went for his wife with the cleaver and she had to sleep in a neighbor’s house. After that they lived apart. She went to the priest and got a separation from him with care of the children. She would give him neither money nor food nor house-room; and so he was obliged to enlist himself as a sheriff’s man. He was a shabby stopped little drunkard with a white face and a white moustache and white eyebrows, pencilled above his little eyes, which were pink-veined and raw; and all day long he sat in the bailiff’s room, waiting to be put on a job.
Why might you want to teach multisyllabic word reading?

• Low decoders
  – pronounced fewer affixes and vowel sounds correctly,
  – disregarded large portions of letter formations, and are
  – two to 4 times as likely to omit syllables

Shefelbine & Calhoun, 1999
Why might you want to teach multisyllabic word reading?

• Poor decoders, even those who can decode simple syllable words, have a difficult time with multisyllabic words.

  Just & Carpenter, 1987

• Students need a flexible strategy for pronouncing long words:
  – No relationship exists between knowledge of syllabication rules and successful reading.

  Canney & Schreiner, 1977
Why might you want to teach multisyllabic word reading?

• Decoding Instruction often ends with 2nd grade:
  – Unfortunately, the number of multisyllabic words begins to dramatically increase in third grade.
Why might you want to teach multisyllabic word reading?

• Many new words in intermediate and secondary material
  – From 5th grade on, the average students encounter approximately **10,000** new words that they have never previously encountered in print.

Nagy & Anderson 1984
Why might you want to teach multisyllabic word reading?

• Most of the new words have 2 or more syllables
  
  Cunningham, 1998

• The longer words are often content words that carry the meaning of the passage.
“The f_______s of the c________n f

“The framers of the constitution faced a difficult conflict. They saw the need for a strong national government. At the same time, they did not want to take away all power from the states. Like most Americans, they believed that state government would better understand the special needs and concerns of their citizens.”

From the American Nation (1994) published by Prentice Hall
Why might you want to teach multisyllabic word reading?

- The “Matthew Effect”
  - Students with low word recognition and fluency skills will read less. “The rich get richer. The poor get poorer.”

(Stanovich, 1986)

Why might you want to teach multisyllabic word reading?

- Other Research
  - 4th and 6th graders having difficulty reading longer words had significant gains when taught to use affixes and vowels to pronounce long words.  
    (Shefelbine, 1990)
  - 7th, 8th, and 9th graders who were taught a decoding strategy for reading long words had fewer oral reading errors and increased reading comprehension.  
    (Lenz & Hughes, 1990)
Overt Strategy for Reading Long Words

1. Circle the word parts (prefixes) at the beginning of the word.
2. Circle the word parts (suffixes) at the end of the word.
3. Underline the letters representing vowel sounds in the rest of the word.
4. Say the parts of the word
5. Say the parts fast
6. Make it into a real word.
Why didn’t the strategy alone have the expected effect?

ACTIVITY A:  **Oral Activity—Blending Word Parts Into Words**

**Activity Procedure:** In this activity, students learn to hear words pronounced part by part by part, before they blend the word parts together to make a real word. Say each word, pausing between the word parts, then have students blend the parts together and say the whole word.

1. Open your *Student Book* to Lesson 1.

2. Listen. I am going to say the parts of a word. You are going to say the whole word. **Listen**. (Say the word, pausing completely between the word parts.) tea spoon ful. What word? __

**Activity Procedure:** In this activity, students learn to identify and pronounce word parts that frequently appear at the beginning or end of words. Because these word parts are not technically prefixes and suffixes as they don’t always carry meaning, we have used the phrase “word part at the beginning of a word” or “word part at the end of the word.” Have students first point to the words, then the circled word parts, while you pronounce them. Ask students to repeat the words and word parts after you.

Overt Strategy

1. Circle the word parts (prefixes at the beginning of the word.

2. Circle the word parts (suffixes) at the end of the word.

3. Underline the letters representing vowel sounds in the rest of the word.

b. a person that does not fit into a group (line 3) __misfit__________________________

c. a word or phrase that was not printed correctly (line 6) __misprint________________

d. to not match (line 7) __mismatch______________________________

**Activity Procedure:** In this activity, students focus on the meaning of words when an affix is added. They read a definition that includes the root word and locate a related word with an affix. Read each definition and ask students to find the word that matches the meaning and write it in the space provided.

“The Emerald Isle”

If you could fly over Ireland on a summer day, you would see lush green meadows and tree-covered hills. Surrounded on three sides by the Atlantic Ocean, Ireland’s green color is so striking that it was named the Emerald Isle. (#1)

The Landscape

At Ireland’s center lies a wide, rolling plain dotted with low hills. Forests and farmland cover this central lowland. Much of the area is rich in peat, or wet ground with decaying plants that can be used for fuel. Peat is dug from bogs, or swampy lands. (#2)

Along the Irish coast, the land rises in rocky highlands. In some places, however, the central plain spreads all the way to the sea. Dublin, Ireland’s capital, is on an eastern stretch of the plain.

The Climate

Whether plain or highland, no part of Ireland is more than 70 miles from the sea. This nearness to the sea gives Ireland a uniform climate. Like the United Kingdom, Ireland is warmed by moist winds blowing over the North Atlantic Current. The mild weather, along with frequent rain and mist, makes Ireland’s landscape green year-round. (#3)
Find Activity J. Today’s article comes from a geography textbook. The article is about the country of Ireland. Read the title with me. “The Emerald Isle.”

**Passage Reading—Accuracy**

Select a passage reading procedure that matches the size of your group and the competency of the students.

**Option A**
If you are teaching a small group with students who are having difficulty, use Option A.

Have students read one paragraph silently. Then, call on one student to orally read a paragraph or a portion of the paragraph to the class. Call on students in random order, varying the amount that each student reads.

**Option B**
If you are teaching a small group with students who are not having difficulty, use Option B.

Have students read the entire article silently, rereading it if they finish before their classmates. Then, call on one student to orally read a paragraph or a portion of a paragraph to the class. Call on students in random order, varying the amount that each student reads.

**Option C**
If you are teaching a large group with students who are having difficulty, use Option C.

Have students read one paragraph silently. Then have students read the paragraph to a partner. Alternate partner reading turns.

**Option D**
If you are teaching a large group with students who are not having difficulty, use Option D.

Have students read the entire article silently, rereading it if they finish before their classmates. Then, have students read the passage with their partners, alternating on each paragraph.

**Comprehension Questions**

You may wish to ask the following questions as the passage is being read. Numbers corresponding to the questions are indicated at the point at which they could be asked.

1. **What country is sometimes called the Emerald Isle?** (Ireland) **Why?** (Because it is so green.)

2. **What do the Irish dig up from the central plain?** (Peat that can be used for fuel.)

3. **Describe the reason for Ireland being so green.** (listen for ideas such as: not far from the sea, uniform climate, moist winds, mild weather, frequent rain and mist)

But practice does not make perfect

Perfect practice makes perfect
How do you increase fluency?

• Selecting appropriate instruction tasks
  – i.e. letter-sounds, words students can produce accurately

• Schedule appropriate sufficient practice
  – multiple brief opportunities per day

• Increase the rate of response systematically.
Repeated Reading

• Students read a short passage again and again (minimum of 3 times).

  Cowhower, 1987; Samuels, 1979

• Students should be able to read text accurately (no more than 5% error rate).

• Correct oral words per minute are graphed.
