New Atomic Learning Online Course to Support Middle School 21st Century Literacy Skills

WHAT'S NEW FOR 2010-2011?

- During the 2009-2010 school year, eighth grade students took the Student Tool for Technology Literacy (ST2L) assessment. To assist students with increasing their technology literacy skills, a new Atomic Learning Online Course for Middle Schools Students is being made available via the BEEP Student Portal.
  - Students sign on to the BEEP Student Portal to view the Atomic Learning Course, complete the projects and activities, and upload completed projects to the student ePortfolio.
  - Teachers can provide feedback to students on their work.
  - Course can be accessed 24/7.
- The course is aligned to National Education Technology Standards (NETS) for Students and will assist middle schools with meeting NCLB which states, "All Eighth Grade students will be technology literate."

WHAT YOU NEED TO DO?

- Learn more about this course and strategies for incorporating it into instruction at the Middle Schools principal meeting.

WHAT WILL HAPPEN IF YOU DON'T?

- Students will miss an opportunity to review or master technology literacy skills.
- NCLB condition may not be met.

WHO NEEDS TO KNOW?

- Principals and Assistant Principals
- Appropriate Department Heads

HOW WILL YOU COMMUNICATE FOLLOW-UP?

- More information will be forthcoming through the Middle School Principal Meetings.
