Hello Awesome Teachers

Friendly Reminder that we will conducting the Infrastructure trial for the FSA online testing system on Thursday, February 11 during your first period (9: 20 a.m. -10:00 a.m.).

The Infrastructure Trial is being done to ensure computer readiness for the upcoming FSA computer based testing in the district. Your participation is valuable in measuring our school's and the district's technology readiness.

The directions in this e-mail will be helpful in administering the Infrastructure Trial (see below). In addition, a script is in your box in Teacher Planning.

It would be helpful for Mr. Haneski to know if there were any computer glitches by writing a note and attaching it to the computer, leave the on top of the computer cart.

Thank you for your participation.

FOR TEACHERS:

1) Teachers will go to ***http://fsassessments.org*** and select Test Administration

2) Select TA Training site

3) Login with your browardschools email and your password

4) Select " infrastructure trial" from the menu to generate a session ID

5) The session ID will be displayed in the upper right, Students will need to enter the ID on their computers. Once they have you will see them come in for approval, you can approve them one at a time or wait until everyone comes in and approve them all.

FOR STUDENTS

1) Select Control+Alt+Delete on student computers and login with the username of onlinetest and the password of broward (all lower case)

2) once at the desktop select the FSA secure browser and click it to open it.

3) Once it is open select the text that says "go to the practice test site"

4) Guest will be entered as first name, username, and session id by default. Leave it checked for Firstname and username, UNCHECK it for guest session and enter the session id you generated in the steps above for teachers. Then click sign in. This is where you will see the students come into your session. They will not be able to proceed until you approve them.

5) They will be asked to pick a grade level, perform a sound check and view tutorials after which they can begin their "test"

6) computers that do not work should be sent to MEDIA with a meaningful description of the problem. didn't work is not enough of a description.
