Students should be completing at least two lessons a week. iReady helps them fill in the gaps. For math, tenmarks, algebra nation and math nation. FSA testing is May 7th and 8th. The week we get back from Spring Break we will start crunch-time. This will give us an opportunity to reteach and review the standards.

VII. SAF Report

- a) IDs are very important even if they know students are known. It is important to know that this is District policy. Throughout schools, there are some schools that do not have nurses. The group that represents the District reported that this is not ok. If students show up with no ID. It is happening more than 3 times, it needs to pay. District said that they need to study about nurses. There are schools that have the needs for a nurse. It takes half a million to allow that. This forum sits and must approve the budget. Not just the District but also the school. If there is nothing there, we cannot have that amenity. The next meeting for SAF is tomorrow. The District takes money from State. The State takes from the developer. The developer needs to take into effect these schools. Money has not been used for this, but it has been used for paying off debt. Tomorrow's meeting will be about is it okay.
