**SUBJECT: DAC MOTION – STUDENT ID BADGES**

In response to DAC's motion for the SBBC to create a policy governing the administration of student ID badges, the Office of School Accountability and Performance proposes the implementation of a Standard Practice. All district schools will be governed according to the following:

**All District Schools**

Each student will receive a school ID badge upon registration. If the badge is stolen, misplaced, or otherwise not accessible to the student while on the school campus, a replacement will be issued. Replacements will be issued up to three (3) times at no cost to the student. After 3 replacements have been issued during that school year, the student will incur a financial obligation up to five dollars each. The financial obligation shall be handled in accordance with the district's policies, rules, and standard practice bulletins governing the collection of these funds.

**Response to District Advisory Council**

January 28, 2019

Florida Statute 381.0056, School Health Services Act requires School Districts and State Health Departments to collaboratively plan for the management of student's health needs. The school district utilizes a Differentiated Staffing School Model, which is comprised of professional Registered Nurses/Licensed Practical Nurses (RN's/LPN's) and Health Support Technicians (HST's) to provide health care services to students.

Each year the District continues to make strides to meet the growing health needs of students by providing increased funding and building partnerships for the provision of clinical management of students with health conditions and providing general health and wellness services.

The Children's Services Council (CSC), The School Board of Broward County and Florida Department of Health – Broward (FDOH) collaborate with planning and funding for school health care personnel. Currently, the combined funding from all entities provides direct on-site health services to 222 schools, and on-call services to five schools.

In 2015-2016, the district had 43 schools receiving only on-call health services. This was reduced to 15 in 2017, and now only 5 schools receive on-call services. Schools without on-site health care personnel are assigned licensed professional Registered Nurse (RN) by FDOH for health consultation, trainings and case management.

In 2016, the District provided additional funding amount of \$ 490,000 to provide full time clinical nurses to support schools. In addition, funding increased for health care personnel by CSC and FDOH. FDOH provides funding for 48 schools and CSC provides funding for 64 schools. We are committed to continue seeking additional funds, both from grants and general funds, to fully support all Broward County Public Schools.

Health services for students are determined by various factors:

- Schools identified by ranking order as high risk based on the *Health and Social Indicators of Need Report* by the Student Research and Assessment Department.
- Case-by-case health consultation with physician orders, medications and treatment plans.
- Type/frequency of health interventions for student(s) required during the school day.

There is ongoing evaluation of student's health needs and staffing hours for health services for students are made accordingly.

The District has increased the number of schools with health support (6.5 hours and above) during the school day, and there are future plans to provide additional full-time professional Registered Nurses in schools.

Attached is a Summary of On-Site Health Services in Schools.

**Broward County Public Schools

**SUMMARY OF ON-SITE HEALTH CARE PERSONNEL & FUNDING PARTNERS**

On-Site Nursing Services		Funding Entity		Number of Schools
*Contracted Agency RN's/LPN's (Chronic Health Program)		Exceptional Student Learning Support (ESLS) (SBBC)		86
Clinic RN'S (Chronic Health Program)		Children's Services Council (CSC)		9
**Health Support Technicians (Basic School Health Program)		CSC		55
**Health Support Technicians (Basic School Health Program)		Florida Department of Health (FDOH)		45
Clinic RN's/LPN's (Full Service)		FDOH		3
Clinic RN's/LPN's (Centers & Chronic Health Program)		SBBC		24
<b>Total</b>				<b>222</b>

**SUMMARY**

- \* Nursing Services for students with chronic health conditions are discontinued with changes in health needs of the student
- Medical Fragile students are not included in this summary. These students usually receive 1:1 nursing services. Currently there are 134 medical fragile students.
- \*\* Health Support Technicians are supervised by RN's at a 1:5 ratio. RN's provide staff trainings and IHCP & EAP for students' health care interventions
- FDOH provides an RN for the schools without on-site nursing services - 5 schools (On-Call)

# MULTIPLE PATHWAYS TO THE AMERICAN DREAM

A "PARENT EXPO" ORGANIZED BY THE EDUCATION/WORKFORCE DEVELOPMENT COMMITTEE

Saturday, April 13, 2019

8:30 AM - 11:30 AM

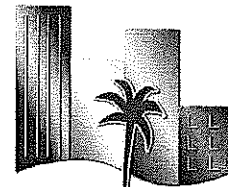

Atlantic Technical College  
Arthur Ashe, Jr. Campus  
1701 NW 23rd Avenue  
Fort Lauderdale, FL 33311

Not all high skill and high income careers require a college/university degree. Imagine your child being able to live the American dream without you or them having to pay down a mountain of student loans. Parents can help put their children on the fast track to high-paying jobs without a significant investment of money or time. Industry speakers will share personal stories, fact and opportunities related to the marine, aviation, hospitality, construction, healthcare, information technology and retail industries.
