OFFICE OF THE SUPERINTENDENT**

**MR. JAMES F. NOTTER
SUPERINTENDENT OF SCHOOLS**

Telephone: 754-321-2600

Facsimile: 754-321-2701

Approved memorandum with signatures is on file.

March 16, 2011

TO: School Board Members

FROM: Joanne W. Harrison, Ed.D., Deputy Superintendent
Educational Programs & Student Support

VIA: James F. Notter
Superintendent of Schools

**SUBJECT: STATE OF EDUCATION IN BROWARD COUNTY PUBLIC SCHOOLS
DISAGGREGATED BY SCHOOL BOARD MEMBER DISTRICT AND AREA**

As you may recall, Research Services summarized Districtwide data in several key areas describing the State of Education in Broward County Public Schools. These data document changes from the 1998-99 through the 2009-10 school years in areas, such as Student enrollment, Advanced Placement course participation, Graduation rates, and Florida Comprehensive Assessment Test performance. The Districtwide data evidenced improvement in the key areas examined. Broward County Public Schools have increased graduation rates, improved test scores, and more schools are now earning higher grades. In 1998-99 Broward County had 34 "A" and "B" schools. In 2009-10, 193 schools earned "A's" and "B's." Further, the number of schools that have received an "F" has decreased from seven schools to five schools. Two of the five "F" schools are charter schools.

Research Services has now disaggregated these performance data according to School Board Member district and area. The attached State of Education tables provide the performance measures for the District overall, as well as for each of your districts and the three areas. Given that the areas were reorganized, information cannot be compared to previous years. These data should prove useful, as you meet with your local constituents.

If you have any comments concerning this memorandum, please contact **Dr. Maria Ligas, Research Specialist, Research Services at 754-321-2500.**
