SUPERINTENDENT OF SCHOOLS**

Telephone: (954) 765-6271

Facsimile: (954) 760-7483

Approved memorandum with signatures is on file.

July 17, 2003

TO: School Board Members

FROM: Katherine Blasik, Ph.D., Assistant Superintendent
Research, Evaluation, Assessment & Boundaries

VIA: Frank Till
Superintendent of Schools

SUBJECT: **2002 RESULTS OF THE SCHOOL READINESS UNIFORM SCREENING SYSTEM (SRUSS)**

The Florida Department of Education (DOE) has released information pertaining to the administration results of the School Readiness Uniform Screening System (SRUSS). The SRUSS was administered for the first time in the fall of 2002 and will be given annually to all kindergarten students during the first 45 days of school. The SRUSS is comprised of two instruments: The Early Screening Inventory-Kindergarten (ESI-K) and either the Work Sampling System (WSS) or the Ready-for-School Behavioral Screener (RFS). Although all Districts are required to administer the ESI-K, Districts may choose either the WSS or the RFS. In Broward, students participate in the ESI-K and the WSS.

The DOE memorandum and State Report of District Results are attached. Broward results are found on page 5 of the report and compare favorably to the state distribution. As can be seen in Table 1 below, results of the ESI-K indicate that while 86% of Broward students entering kindergarten in the fall of 2002 were considered ready for school at that time, 82% of students entering kindergarten around the state were ready.

Table 1. ESI-K Results*

	Number Reported	Percent Ready Now	Percent Getting Ready	Percent Not Ready Yet
Broward	16,791	86	10	3
State	157,939	82	13	5

*Due to rounding procedures, sums of percentages may not equal 100%.

Also attached is the District Report of School Results. Analysis of this report reveals that:

- Of the 141 Broward elementary schools reporting results, 102 (72%) performed at or above the state average in terms of percentage of students ready for school at the beginning of kindergarten (State average = 82% ready for school).
- Notably, of the 39 schools in Broward County performing below the state average in terms of percent of students ready for school at the beginning of kindergarten, 26 are schools receiving services through Title I, a federally funded program for economically disadvantaged children.
- Furthermore, 99 (70%) of Broward schools had fewer than the state average of 5% of students classified as not ready for school at the time of testing.

While the results of the ESI-K are based on objective performance indicators, results of the WSS are determined by teachers' ratings of the performance indicators in five domains and are, consequently, more subjective. On the WSS, students were generally considered "Proficient" if the skill was demonstrated, students were rated as "In Process" if the skill was not demonstrated consistently, and students were rated as "Not Yet" if the skill was not demonstrated. Table 2 displays the results of the WSS for Broward and the State.

Table 2. WSS Results*

	Number Reported	Status	WSS Domain				
			Personal & Social Development	Language & Literacy	Mathematical Thinking	The Arts	Physical Development & Health
Broward	18,137		Percent	Percent	Percent	Percent	Percent
		<i>Proficient</i>	38	25	32	50	62
		<i>In Process</i>	56	64	56	46	34
		<i>Not Yet</i>	6	11	12	4	3
State	152,946		Percent	Percent	Percent	Percent	Percent
		<i>Proficient</i>	46	33	44	58	68
		<i>In Process</i>	47	54	44	37	28
		<i>Not Yet</i>	7	13	12	5	5

*Due to rounding procedures, sums of percentages may not equal 100%.

As seen in Table 2, there is some variability between the State and Broward averages in terms of the percentage of students rated as "Proficient" versus those rated as "In Process." For example, 38% of students in Broward are considered proficient in Personal and Social Development, as compared to 46% of students across the State. In all five of the WSS domains, a smaller proportion of Broward students were rated as proficient than students across the state. However, it is equally important to note that Broward schools performed as well or better than the State averages in all domains in terms of the percentage of students who were rated as not yet demonstrating the skills measured by this instrument. Again, it is difficult to determine whether this is a function of the actual skills of Broward County students or if this is an artifact of the subjectivity of this measure, as teachers in Broward County may have applied more stringent standards when rating their students than teachers in other districts in the state.

If you have any questions regarding this release, **please contact me at (954) 760-7342, or Anne Dilgen, Director, Student Assessment, at (754) 321-4257.**

Early Screening Inventory - Revised (ESI-K)

Total ESI-K scores are calculated using teacher ratings of 19 activities performed by students. Practice items and Speech Development (Section IV) tasks are not included in these totals. Total ESI-K Scores can be interpreted as shown in the table to the right.

ESI-K Scoring Table

Age Range	Total ESI-K Score Ranges		
	Not Ready Yet	Getting Ready	Ready Now
4.6 - 4.11	9 or less	10 - 13	14 or more
5.0 - 5.5	13 or less	14 - 17	18 or more
5.6 - 5.11	15 or less	16 - 20	21 or more
unknown	9 or less	10 - 20	21 or more

Work Sampling System (WSS) Checklist

WSS Status by Domain is summarized using teacher ratings of the performance indicators within the following domains:

- 1. Personal and Social Development:** This domain emphasizes emotional and social competence. Teachers learn about children's social competence by interacting with them, observing their interactions with other adults and peers, and watching how they make decisions and solve social problems.
- 2. Language and Literacy:** This domain emphasizes the language and literacy skills needed to understand and convey meaning into five components: Listening, Speaking, Reading, Writing, and Research.
- 3. Mathematical Thinking:** This domain emphasizes approaches to mathematical thinking and problem-solving. The content of mathematics (concepts and procedures) is stressed, but the larger context of understanding and application (knowing and doing) is also of great importance.
- 4. The Arts:** This domain emphasizes engagement with the arts (dance, dramatics, music, and fine arts). The components address two ideas: How children use the arts to express, represent, and integrate their experiences, and how children develop an understanding and appreciation for the arts.
- 5. Physical Development and Health:** This domain emphasizes physical development as an integral part of well-being and educational growth. This component addresses abilities to understand and manage personal health and safety.

WSS Status Table

Status	Description
Not Yet (N)	The skill was not demonstrated.
In Process (I)	The skill was not demonstrated consistently.
Proficient (P)	The skill was demonstrated.

Ready-for-School (RFS) Behavioral Screener

RFS Standard Status is determined by teachers' checklist ratings of clusters of 93 items that are grouped into 14 standards.

RFS Standard Descriptions

Standard	Description
1	Follows classroom rules and routines
2	Starts, performs, and completes structured and unstructured tasks common to the classroom
3	Interacts with teachers in the classroom
4	Interacts with peers during structured and unstructured activities
5	Exercises self-control and frustration tolerance
6	Demonstrates personal care skills needed in school
7	Communicates his/her needs and demonstrates one's ability to express concern for others
8	Verbally communicates effectively in the school setting
9	Demonstrates social problem solving skills
10	Understands and complies with verbal information
11	Stays on task and explores materials in the classroom
12*	Shows interest in books
13	Pays attention to verbal information
14*	Participates in art and music activities

RFS Status Table

Status	Description
Emerging (E)	May require additional instruction to more fully acquire needed skills
Competent (C)	Development is proceeding at an adequate pace
Proficient (P)	Demonstrated proficiency of needed skills

* Standards 12 and 14 are one-item standards and are not reported in summary data.
