SUBJECT: **RELEASE OF 2005 FLORIDA COMPREHENSIVE ASSESSMENT TEST
(FCAT) WRITING RESULTS**

Today, the Florida Department of Education (DOE) released results from the 2005 Florida Comprehensive Assessment Test (FCAT) Writing Assessment. The FCAT Writing Assessment is administered annually to students at grades four, eight, and ten. Scores are reported on a scale ranging from 1.0 to 6.0, where a score of 3.0 demonstrates proficient writing skills. In the forthcoming pages, you will see that:

- **The mean score for Writing among Broward students was 3.9 for Grades 4, 8, and 10. This exceeds the state averages as well as average scores from most other districts.**
- **A majority of students at the fourth (93%), eighth (94%), and tenth grade (91%) scored at or above the proficient level.**

These results reflect students from all curriculum groups who took FCAT Writing this year, and therefore include students who participate in Exceptional Student Education (ESE) programs and/or have limited English proficiency (LEP). The fourth grade Writing Assessment directs students to write either in Expository or Narrative style. The eighth and tenth grade Writing Assessment directs students to write either in Expository or Persuasive style. Results are reported by grade level as mean scores for Expository and Narrative/Persuasive style, and also as Combined scores. Table 1 presents these results from the 2005 FCAT Writing Assessment.

Table 1 provides expository, narrative, and persuasive scores for the FCAT Writing Assessment. For the fourth consecutive year Broward's fourth grade students outperformed students across the state, with this year's Combined score for Broward at a 3.9 as compared to 3.7 for the state. At the eighth grade level, the Combined writing scores have held steadily above proficient since 2002 and have been higher than the statewide average for two years in a row. The grade 10 Combined writing score has also held steady for the past two years, remaining higher than the statewide average and well above the proficient level.

Figure 1 shows the distribution of Writing scores among fourth, eighth, and tenth grade students in Broward. The percent of students in each scoring point, for each grade level, is illustrated in the figure.

**Figure 1:
 Distribution of 2005 Writing Assessment Scores (Combined)**

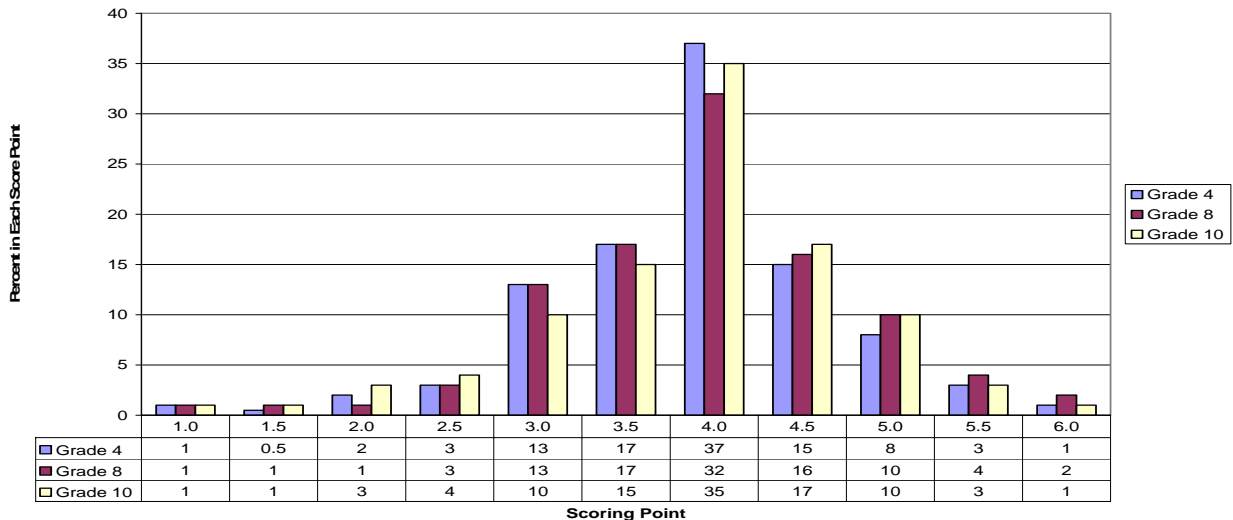

Figure 1 shows that the vast majority of Broward students are performing at or above the proficient level of the FCAT Writing Assessment. This figure also helps clarify the results presented in Table 1. For example, it can be seen in Figure 1 that 35% of tenth graders, 32% of eighth graders, and 37% of fourth graders in Broward received a Writing score of 4.0. The figure also demonstrates that very few students are scoring below the proficient level in Writing at any grade level. The modal Writing score among Broward students was 4.0, which is one full point above the proficient level.

Table 2 presents the number of students at each grade level who earned a score of 3.0 or higher, and 3.5 or higher from 2002 to 2005. Since 2002, the percentage of fourth grade students performing at 3.5 or higher in Writing has increased by **25%** (from 56% to 81%). At the eighth grade level, increases from the previous year were seen in both students scoring at 3.0 and higher (from 91% to 94%) and students scoring 3.5 and higher (77% to 81%). There was a slight decrease (1%) among tenth grade students scoring at 3.0 or higher compared to the previous year, although the rate of tenth grade students scoring at 3.5 or above has remained high at 81%.

Table 2:

2004	92%	81%
2005	91%	81%
Note: Due to rounding procedures employed by the Florida Department of Education, these percentages may not sum to those results presented in Figure 1.		

Overall the results of the FCAT Writing Assessment show that Broward continues to make progress in this important area of academic achievement.
