Superintendent of Schools

**SUBJECT: 2006 STANFORD ACHIEVEMENT TEST, TENTH EDITION (SAT-10)
RESULTS - STANDARD CURRICULUM GROUPS IN READING
COMPREHENSION AND MATHEMATICS PROBLEM SOLVING**

The Stanford Achievement Test, Tenth Edition (SAT-10) is a national norm-referenced test of Reading and Mathematics. Broward County Public Schools (BCPS) first and second grade students are administered this assessment during the spring of each school year. As specified in School Board Policy 6000.1, performance on the Reading Comprehension subtest is one criterion for promotion to the next grade level. On May 19, 2006, individual student results of the second administration of the SAT-10 were disseminated to schools. Enclosed you will find the District and school-by-school summary data of student performance on this assessment.

SAT-10 Districtwide Results

Reading and Mathematics test results for BCPS grades 1 and 2 students who participated in SAT-10 testing during 2005-06 are summarized in Table 1. When reviewing norm-referenced test scores, remember that the average national percentile score is 50.

Table 1 indicates that, on average, district student performance on the SAT-10 continued to be above the national average (50th percentile) for grades 1 and 2 in Reading and Mathematics.¹ Because this was the second year that the new version of this assessment was administered, only two years of data are reported. As displayed in the table, the BCPS average percentile rank improved over the previous year by three percentile points in Reading at grade 1 and four percentile points at grade 2. In Mathematics, the grade 1 average percentile rank improved by two points and grade 2 improved by three points. These data are graphically displayed in Figure 1. The horizontal arrow indicates the average national percentile rank of 50.

¹ Individual student percentile rank scores were converted to normal curve equivalent (NCE) scores prior to averaging. The average NCE score was reverse transformed to a percentile rank for presentation.

Table 1
Broward SAT-10 Average Percentile Rank

Grade	Reading		Mathematics	
	2004-05	2005-06	2004-05	2005-06
1	57	60	58	60
2	56	60	57	60

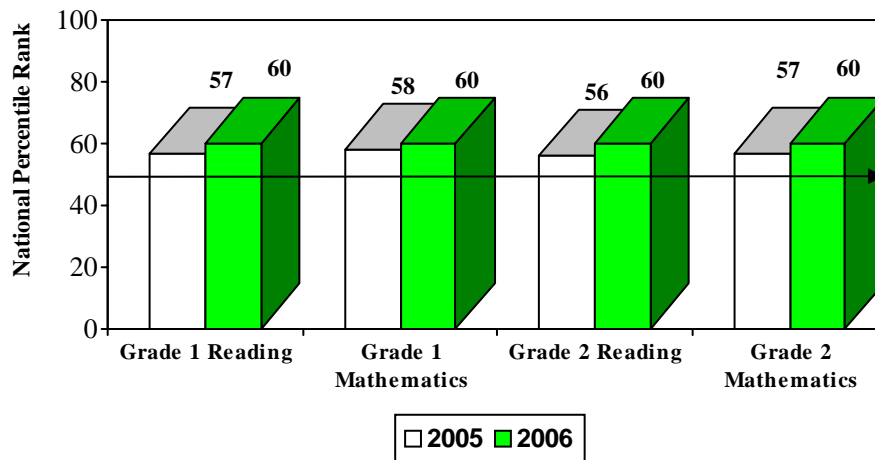

Figure 1. SAT-10 Average Percentile Rank 2004-05 to 2005-06.

SAT-10 Results by Gender

The SAT-10 results displayed in Table 2 are disaggregated by gender. Female students at both grades 1 and 2 registered higher scores than did their male peers in Reading. In Mathematics, scores for grade 1 females were slightly higher than scores for males, but the pattern was reversed at grade 2. The gap between females and males was larger in Reading with a gap of 10 to 11 percentile points than in Mathematics where the gap was 2 percentile points.

Comparison of scores from 2004-05 to 2005-06 revealed increases among first grade females in Reading (63%ile vs. 65%ile), and in Mathematics (59%ile vs. 61%ile). Similar increases are noted for grade 1 males in Reading (52%ile vs. 55%ile), and in Mathematics (57%ile to 59%ile). At second grade, increases were evident among females in Reading (61%ile vs. 65%ile), and in Mathematics (56%ile vs. 59%ile). Similar performance increases are posted for grade 2 males in Reading (51%ile vs. 55%ile), and in Mathematics (58%ile vs. 61%ile).

Table 2
Broward Grade 1 and 2 SAT-10 Results by Gender

Gender	2004-05				2005-06			
	Reading		Mathematics		Reading		Mathematics	
	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>
Grade 1								
Female	9,714	63	9,685	59	9,460	65	9,454	61
Male	10,675	52	10,644	57	10,097	55	10,085	59
Grade 2								
Female	9,745	61	9,729	56	9,485	65	9,454	59
Male	10,576	51	10,567	58	10,184	55	10,184	61

SAT-10 Results by Ethnicity

Table 3 summarizes SAT-10 test results by ethnicity. In 2005-06, Hispanic and White students registered test scores above the national average of the 50th percentile for both Reading and Mathematics in grades 1 and 2. The percentile scores for Black students were below the national average in Mathematics in grades 1 and 2. The performance of Black students was close to the 50th percentile in Reading (grade 1 = 52; grade 2 = 48).

An across-year examination 2004-05 to 2005-06 revealed increases in performance for Black and Hispanic students in both Reading and Mathematics at both grade levels. The gaps in performance between Black and White students and between Hispanic and White students have remained constant across the school years examined.

Table 3
Broward Grade 1 and 2 SAT-10 Results by Ethnicity

Ethnicity	2004-05				2005-06			
	<u>Reading</u>		<u>Mathematics</u>		<u>Reading</u>		<u>Mathematics</u>	
	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>

SAT-10 School-by-School Results

School-by-school results are attached to this report in Appendixes A and B. Appendix Tables A1 through A5 summarize individual Broward school 2005-06 participation and the average percentile rank results for Grades 1 and 2. Appendix Tables B1 through B5 report average percentile trend data for first and second grade students in Broward County.

Highlights of Broward schools' score reports indicate that:

- 111 of 138 (80%) Broward elementary schools, with reportable results, registered percentile ranks at or above the national mean in Reading Comprehension for first grade.
- 98 of 138 (71%) Broward elementary schools registered percentile ranks at or above the national mean in Mathematics Problem Solving for first grade.
- 101 of 138 (73%) Broward elementary schools registered percentile ranks at or above the national mean in Reading Comprehension for second grade.
- 99 of 138 (72%) Broward elementary schools registered percentile ranks at or above the national mean in Mathematics Problem Solving for second grade.
- Notably, students at 28 Broward elementary schools posted average percentile ranks at or above the 75th percentile in at least one area, with students at three elementary schools (Bayview, Indian Trace, and Park Trails) posting average percentile ranks at or above the 75th percentile in both subject areas (Reading Comprehension and Mathematics Problem Solving) across both grade levels (first and second).

- Five charter elementary schools (Broward Community Charter, Chancellor Charter at Weston, City of Pembroke Pines Elementary Charter, Florida Intercultural Academy and Somerset Neighborhood Charter) earned average percentile ranks at or above the 75th percentile in at least one area.

Although these results appear encouraging for many schools, the disaggregated analyses demonstrated performance gaps. In particular, male students tend to lag behind their female classmates in Reading. Black students tend to fall behind students of other ethnic backgrounds in Reading and Mathematics. These findings indicate that continued effort and support must be available for all students at all schools. In addition, 17 elementary schools posted overall percentile ranks at or below the 30th percentile in Reading and/or Mathematics in grades 1 and/or 2. Each Principal and his/her Area Director shall review school scores on the SAT-10 and identify appropriate interventions, particularly for schools posting scores below the national mean on this assessment.

This memorandum and the attached appendix can be accessed on the Student Assessment & School Performance Department Web site at <http://www.broward.k12.fl.us/studentassessment/reports.htm>. If you have any questions regarding this report, please contact **Russell Clement, Director, Student Assessment & School Performance, at 754-321-4257.**
