Interim Superintendent of Schools

SUBJECT: **2007 STANFORD ACHIEVEMENT TEST, TENTH EDITION (SAT-10)
RESULTS - STANDARD CURRICULUM GROUPS IN READING
COMPREHENSION AND MATHEMATICS PROBLEM SOLVING**

The Stanford Achievement Test, Tenth Edition (SAT-10) is a nationally normed test of Reading and Mathematics. Broward County Public Schools (BCPS) first and second grade students are administered this assessment during the spring of each school year. As specified in School Board Policy 6000.1, performance on the Reading Comprehension subtest is one criterion for promotion to the next grade level. On May 7, 2007, SAT-10 individual student results became available in the district Data Warehouse and on Virtual Counselor. Enclosed you will find the District and school-by-school summary data of student performance on this assessment. As the following data summaries illustrate, performance has increased. However, performance gaps between boys and girls and between the major ethnic groups have persisted.

SAT-10 Districtwide Results

Reading and Mathematics test results for BCPS' first and second grade students who participated in SAT-10 testing during 2006-07 are summarized in Table 1 along with data from the prior two school years. When reviewing these test scores, remember that 50 is the average national percentile rank for a norm-referenced test.

Table 1
Broward SAT-10 Average National Percentile Rank

Grade	<u>Reading</u>			<u>Mathematics</u>		
	2004-05	2005-06	2006-07	2004-05	2005-06	2006-07
1	57	60	62	58	60	60
2	56	60	61	57	60	60

Table 1 indicates that, on average, district student performance on the SAT-10 continued to be above the national average (50th percentile) for grades 1 and 2 in Reading and Mathematics.¹ As displayed in the table, the BCPS average percentile rank improved over the previous year by two points in Reading at grade 1 and one point at grade 2. In Mathematics, average percentile rank remained stable between 2005-06 and 2006-07. These data are graphically displayed in Figure 1.

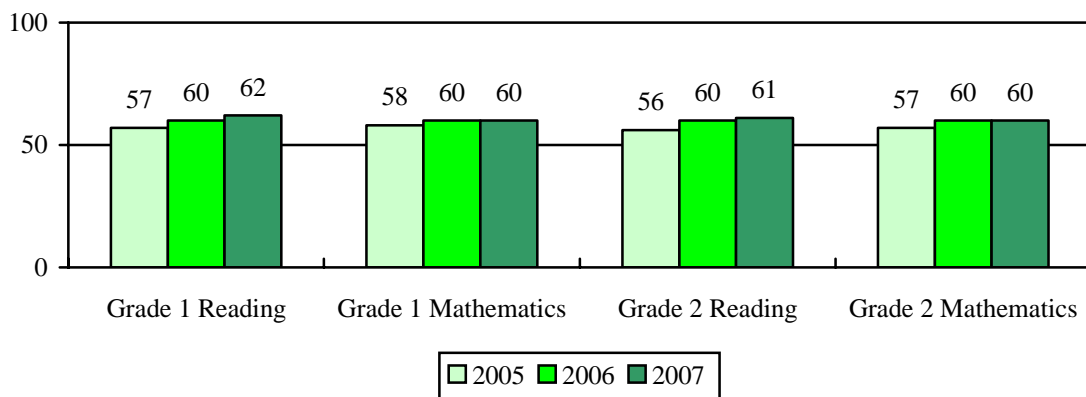

Figure 1. SAT-10 Average Percentile Rank 2004-05 to 2006-07.

SAT-10 Results by Gender

The SAT-10 results displayed in Table 2 are disaggregated by gender. Female students at both grades 1 and 2 registered higher scores than did their male peers in Reading. In Mathematics, scores for grade 1 females were higher than scores for males; however, the pattern was reversed at grade 2. In both first and second grade the difference between genders was higher in Reading.

Table 2

Broward Grade 1 and 2 SAT-10 Results by Gender

Gender	2004-05				2005-06				2006-07			
	Reading		Mathematics		Reading		Mathematics		Reading		Mathematics	
	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>
Grade 1												
Female	9,714	63	9,685	59	9,460	65	9,454	61	9,371	67	9,346	61
Male	10,675	52	10,644	57	10,097	55	10,085	59	10,161	57	10,136	59
Grade 2												
Female	9,745	61	9,729	56	9,485	65	9,454	59	9,211	65	9,199	60
Male	10,576	51	10,567	58	10,184	55	10,184	61	9,575	57	9,558	61

¹ Individual student percentile rank scores were converted to normal curve equivalent (NCE) scores prior to averaging. The average NCE score was reverse transformed to a percentile rank for reporting.

Comparison of scores from 2004-05 to 2006-07 revealed increases among first grade females in Reading (63 to 67), and Mathematics (59 to 61). Increases are also noted for grade 1 males in Reading (52 to 57), and Mathematics (57 to 59). For both male and female grade 1 students, the mean percentiles did not change from 2005-06 to 2006-07. In second grade, increases were evident among females in Reading (61 to 65), and Mathematics (56 to 60). Increases were also evident for grade 2 males in Reading (51 to 57), and Mathematics (58 to 61). Among second grade females, mean reading performance remained stable at the 65th percentile from 2005-06 to 2006-07. Among the second grade males, mean mathematics performance was registered at the 61st percentile for the most recent two year.

SAT-10 Results by Ethnicity

Table 3 summarizes SAT-10 test results by ethnicity. In 2006-07, Hispanic and White students registered test scores above the national average of the 50th percentile for both Reading and Mathematics in grades 1 and 2. The mean percentile scores for Black students were below the national average in Mathematics in grades 1 and 2. The performance of Black students was at or above the 50th percentile in Reading (grade 1 = 53; grade 2 = 50), but below the national average in Mathematics (grade 1 = 46; grade 2 = 45).

An across-year examination 2004-05 to 2006-07 revealed increases in performance for Black and Hispanic students in both Reading and Mathematics at both grade levels. The gaps in performance between Black and White students and between Hispanic and White students have persisted across the school years examined.

Table 3

Broward Grade 1 and 2 SAT-10 Results by Ethnicity

Ethnicity	<u>2004-05</u>		<u>2005-06</u>		<u>2006-07</u>							
	<u>Reading</u>	<u>Mathematics</u>	<u>Reading</u>	<u>Mathematics</u>	<u>Reading</u>	<u>Mathematics</u>						
	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>	<i>n</i>	<i>%ile</i>						
Grade 1												
Black	7,249	49	7,220	44	7,087	52	7,083	46	7,491	53	7,474	46

White	6,545	67	6,535	72	6,212	71	6,213	74	5,713	72	5,697	75

SAT-10 School-by-School Results

School-by-school results are attached to this memorandum. The attachment summarizes individual Broward school participation and the average percentile rank results for grades 1 and 2 during the 2004-05 through 2006-07 school years.

Highlights of Broward schools' score reports indicate that:

- 121 of 158 (76.6%) Broward elementary schools registered percentile ranks above the national mean in Reading Comprehension for first grade.
- 113 of 158 (71.5%) Broward elementary schools registered percentile ranks above the national mean in Mathematics Problem Solving for first grade.
- 120 of 157² (76.4%) Broward elementary schools registered percentile ranks above the national mean in Reading Comprehension for second grade.
- 101 of 157² (64.3%) Broward elementary schools registered percentile ranks above the national mean in Mathematics Problem Solving for second grade.
- Notably, students at 28 traditional Broward elementary schools posted average percentile ranks at or above the 75th percentile in one or more area, with students at five elementary schools (Bayview, Embassy Creek, Everglades, Indian Trace, and Park Trails) posting average percentile ranks at or above the 75th percentile in both subject areas (Reading and Mathematics) across both grade levels (first and second).
- Five charter elementary schools earned average percentile ranks at or above the 75th percentile in at least one area. Chancellor Charter Weston scored at or above the 75th percentile both Reading and Mathematics for first and second grade.

Although these results appear encouraging for many schools, the disaggregated analyses demonstrated performance gaps. In particular, male students tend to lag behind their female classmates in Reading. Black students tend to fall behind students of other ethnic backgrounds in Reading and Mathematics. These findings indicate that continued effort and support must be available for students at all schools. In addition, 15 elementary schools posted overall percentile ranks at or below the 30th percentile in Reading and/or Mathematics in grades 1 and/or 2. Furthermore, three charter schools scored at or below the 30th percentile in both Reading and Mathematics at each grade level (Susie Daniels, Eagles' Nest, and Charter Institute Fort Lauderdale).

The SAT-10 is used as an end-of-year examination to benchmark Broward students against a national sample. In addition, the SAT-10 does provide strand level data that indicates students' specific areas of strengths and weaknesses. This information can be used for initial placement and instructional design decisions at the beginning of the second and third grades. However, the SAT-10 does not provide diagnostic information that can be used to guide instruction throughout the year, nor does it provide any information that can be used during first grade. Therefore, the Assessment Committee will examine other testing options to provide periodic diagnostic information throughout the year. A recommendation concerning periodic diagnostic assessment for first and second grade will be brought forth by September 1, 2007.

² Somerset Neighborhood School did not have second grade enrollment during the 2006-07 school year.

SAT-10 Results
