Mr. Malca: As part of the school's equity plan one of our goals is to provide all students equitable access to digital learning and extracurricular activities. Falcon Coves Media Center (The Nest) is open before school every day for our students to use computers for digital learning. Students have access to Computers during this time. All students have access from school and at home to our online resources for research and reading, which can be access through their SSO and Canvas accounts or through falconcove.net. All students also have access to the Broward County's public library's eBook collections through their school Destiny accounts. All students are given an orientation to these resources through their 6th grade Language Arts teachers. We thank them for that.
